PROJECTS

Currently a newbie in tech and hence that is the reason of my non glamorous projects

Personal Portfolio Website

Tech Stack: React (Vite), Tailwind CSS, Vercel

- Designed and developed a fully responsive personal portfolio website to showcase projects, skills, and achievements.
- Built with React using Vite for fast build performance and modular structure.
- Styled using Tailwind CSS, ensuring a clean, mobile-friendly, and modern UI.
- Implemented routing, project cards, and contact form using best practices in component design.

Weather App

Tech Stack: Django, Python, OpenWeather API, Google Search API

- Developed a web-based weather application using Django (Python) to fetch and display real-time weather data for user-entered cities.
- Integrated OpenWeather API to retrieve live temperature, humidity, wind speed, and conditions dynamically.
- Implemented Google Custom Search API to display the first relevant background image based on the searched city, enhancing visual context.

SKILLS

Python, C, C++, React, Django, Frontend & UI/UX designer, HTML and CSS, JavaScript, TailwindCss, Bootstrap, Git and Github, Vercel, Figma, BackEnd Web Developer, Canva

Dedicated & Committed, Effective Communicator, Tech-Savvy, Content & Design Enthusiast, Collaborative Team Player and Leader, Networking & Outreach Expert, DeadLine Achiver
